Powderly Very Tired.

HE CONSIDERS THE STRIKE RASH AND ILL-ADVISED—A VERY CONSERVATIVE IRCULAR ISSUED—HE WANTS TO STOP FOOLISH STRIKES.

ST. LOUIS, March 26.—A long secret circular issued by General Master Workman Powderly, addressed to the order of Knights of Labor, just made public here, is the most important document that has yet been issued bearing upon the acts and condition of that order. Mr. Powderly opens by instructing the secretary of each assembly to call a full meeting and read the circular before it. The address then orders the assemblies to cease initiating new members till the relations of capital and labor shall become less strained than at the present time. Mr. Powderly then says:

"The attempt to win concessions or gains with our present raw, undisciplined membership would be like hurling an unorganized mob against a well drilled army. It is not fair to the older assemblies to permit new ones to pick up their quarrels as soon as organized and have them expect pecuniary aid from those who helped build the order up for a noble purpose."

After dwelling at some length upon the inadvisability of taking in new members, the address continues:

"We must not fritter away our strength and miss the opportunity of present success in a struggle against capital by rushing into useless strikes. To the cardinal principles of the order we must add another—patience. You have had patience for years and hundreds of Knights of Labor appeared upon the scene you would still be waiting. Your scales of prices must be adjusted to meet the times, and there is no other way than a strike. You must submit to injustice at the hands of the employer in patience for a while longer. Bide well your time; find out how much you are justly entitled to and the tribunal of arbitration will settle the rest."

Mr. Powderly then cautions the assemblies against receiving employers into their ranks and warns them that to publish plans in running night and day how to catch the Knights of Labor for the advantage of himself and party, and adds that to use the name of the order in a political contest is criminal and must not occur. Referring to the eight hour movement the circular says: "As Knights of Labor you must not strike for the eight hour system on May 1, under the impression that aid will come to you from headquarters, for such order was not and will not be given. Out of 60,000,000 of people in the United States and Canada our order has possibly 300,000. Can we mould the sentiments of the millions in favor of the short hour plan before May 1? It is nonsense to think of it."

After speaking of the qualities which officers of assemblies should possess, and advising Knights of Labor to elect honest men of even temperament, Mr. Powderly continues: "While I write a dispatch is handed me in which I read these words:

"'They discharged our brother and we struck. You know our motto is, 'An injury to one is the concern of all.' Yes, an injury to one is the concern of all, but it is not wise to injure all for the sake of one. It would be far better to continue at work and properly investigate the matter, bringing it before every known tribunal, than to have a strike."

Speaking of the relations between the church and the Knights of Labor Mr. Powderly says: "I warn our members against hostility and ill-considered action. The church will not interfere with us so long as we maintain the law. If the law is wrong it is our duty to change it. I am pained to see some clergymen and others to tell them our order is composed of law-abiding, intelligent men while the next dispatch brings the news of some petty boycott or strike."

In conclusion the master workman says: I" write this circular to lay before the order the exact condition of things. I am neither physically nor mentally capable of performing the work required of me, and will not do so any part, but I must not be ased to maintain a false position before the world any longer. One of two things must take place. Either local district assemblies obey the constitution and its laws or I must be permitted to resign from a position which obliges to play one part before the public and another to our members. I say to the world the Knights of Labor do not approve of or encourage strikes, and in one day the dispatches came to me to come to Troy, N. Y., Manchester, N. H.; Chicago, O.; Lynchburg, Va.; Springfield, Ill., and Scranton, Pa. It is possible for human nature to stand the strain any longer. I must have the assistance of the order or my most earnest efforts will fail. Those who boast must be checked by their assemblies. No move must be made until the court of last resort has been appealed to and threats of violence must not be made. Politicians must be hushed up or driven out. Obedience to the laws of Knighthood must have preference to those of any other order. If these things are done the next few months will witness the complete emancipation of mankind from the curse of monopoly. In our members we require secresy, obedience, assistance, patience and courage. If with these aids you strengthen my hands I will continue in the work. If you do not desire to assist me in this way then select a man better qualified to obey your will and I will retire in his favor."

Trouble at Atchison.

Special Telegram to The Star.

ATCHISON, March 26.—There is big excitement here. Two trains, guarded by United States marshals, were stopped and the engines killed.

In Kansas City.

Will the strike on the Missouri Pacific soon end? That is the question that is being asked hundreds of times daily, and no satisfactory answer has as yet been returned to it. The railroad officials say that they cannot tell many days longer that the strikers will be forced to retire and allow the trains to be moved. The strikers claim the trouble is as far from a settlement now as it was the day it begun; that not a train shall be moved until the company is willing to make concessions. Both sides are equally positive in their declarations and which statement will prove true remains to be seen. To the average observer, however, it is clear that the turning point in the strike has been reached; that in a short time either the men will have to give in or the road will be forced to accept a compromise. The present situation is looked upon as graver for the strikers than at any other time since the trouble began. If the proclamations of Governors Marmaduke and Martin mean anything at all, they mean that the strikers must not any longer interfere with the running of Missouri Pacific freight trains. In other words, the strikers must now allow traffic to be resumed or confront the militia of two states. Which they will do cannot, at the present time, be definitely stated.

The yards at the state line bore the same lifeless appearance this morning that they have borne for the past eighteen days. The trains are still sidetracked and the wheels have become rusty from their long standing upon the switches. Two or three passenger engines still send their smoke above the depot, and a dozen, or more strikers, yet maintain their watch at the round house and in the yards. The freight depot is deserted by all save a few clerks whom the company is compelled to keep on duty; and across the Kaw a score of switch engines, powerless to move themselves, much less the loaded trains, stand fronting the closed doors. Even spectators are absent from the yards, for the novelty of the strike has disappeared and nothing is to be seen but a lifeless scene, which is quite as monotonous as it is painful.

EFFECTS OF THE PROCLAMATION.

As predicted in THE STAR yesterday, Governor Martin, of Kansas, has issued a proclamation similar to the one issued by Governor Marmaduke last Monday night. This has resulted in placing the strikers at the mercy of a cross fire from the militia of Missouri and Kansas. Governor Marmaduke's proclamation in itself was not sufficient to make any great change in the local situation for the reason that the company's engines were across the Kaw, where they could not be protected by the militia. This fact was well known to the strikers, and when they read the proclamation they remarked: "We don't care for that; it is harmless and Governor Martin will not side with the company." This morning, however, they found a material change in the situation. The governor of Kansas had done precisely what Governor Marmaduke should not do: he had issued a proclamation calling upon the strikers to allow the trains to be moved and warning them that if they interfered with the freight traffic the militia of the state would be used to assist the company.

"What do you think of Governor Marmaduke's proclamation?" asked a STAR reporter of a striker.

"That won't start the trains was the reply."

"Will the strikers resist any attempt that is made to move trains?"

"I don't know."

Further questioning did not result in obtaining any information as to what the strikers would do if the company made an attempt to resume its freight traffic. They said, however, that without men the trains could not be moved, and the governor had no power to force them to open switches or repair the "killed" engines. This statement would indicate that the strikers will not interfere with the trains in that the company may succeed in employing, but will refuse to assist in starting the trains. They are confident that no union hands can be employed and that enough non-union men can not be obtained to operate the road.

Superintendent Drake was seen this morning and when asked in regard to the situation replied:

"I don't know of any change. I get all my news of the strike from the papers."

"Have you read Governor Marmaduke's proclamation?"

"Yes."

"Will the company make any attempt to run trains at this point?"

"Not until the road is open at Atchison and Sedalia. When those points are clear we will start trains from this city. It would be useless to move them from the yards in this city at the present time."

"Do you expect any serious resistance on the part of the strikers when the trains are moved?"

"I don't anticipate any trouble."

"Are the engines at Cypress yards killed?"

"That is an old story. Some of the engines have been crippled by the strikers taking away small pieces of the machinery, but they can easily be replaced."

Several representatives of elevators yesterday asked the executive board of district 101 Knights of Labor, to grant permission to have grain removed, provided other than Missouri Pacific cars were used. This would amount to running the cars of other lines over the Missouri Pacific property, but the executive board replied that the request would be granted. Superintendent Drake stated to a STAR reporter this morning that he would not allow other cars to be used upon the elevator switches, as the company insisted upon the right to operate its own road. He said that if such permission were granted it would be parallel to the case of a merchant who is asked to step out of his store and allow another man to step in and conduct the business.

Gubernatorial Proclamations.

THE GOVERNORS OF KANSAS, ARKANSAS AND TEXAS DEMAND THAT TRAFFIC BE RESUMED.

The governors of Kansas, Arkansas and Texas have followed the course of Governor Marmaduke and issued proclamations calling on the people to refrain from interfering with the operations of the roads. Governor Martin's proclamation is addressed to the sheriffs, county attorneys, and other peace officers of the state of Kansas," and is as follows:

"Kansas has no water ways within its borders. Its internal commerce is carried by its railways. Its prosperity always carries and the prosperity of the state and the interests and welfare of its people, farmers, mechanics, merchants, manufacturers, laborers, and all others are dependent upon the uninterrupted operation of the railway lines of the state. The interruption of these great arteries of commerce is a disaster to all, and hence is the concern of all. Their operation is vitally essential to every commercial, industrial and agricultural interest of the people, and hence not only the greatest good to the greatest number but the greatest good to each individual citizen is subserved by their uninterrupted operation.

"We are now in the third week of the most serious business disaster that has ever befallen our state. The forcible stoppage of transportation over a long line of railroads touches the interests of a third of the people of Kansas, several hundred thousand in number. Supplies of food and fuel are cut off in many localities. Farmers, merchants and manufacturers are prevented from selling and shipping their stock and goods and from paying thousands of laborers hitherto in their employ. Thus the stoppage of railroad transportation paralyzes and stops the business and industry of great masses of our people.

"The cause of the difficulty it is not our province to determine. We live in a law-abiding state and have no fight with any class of corporations and the people must alike obey the law; as new grievances arise new legislative remedies will be found and adopted, but we will not tolerate disobedience and nullification of the laws.

"We have. Those who violate the law should be arrested and brought before the courts for trial and punishment. The stopping of transportation and the stagnation of business have been conducted in open violation of law. The wheels of industry must be put into motion. No one class of men have any right in law or equity, common sense or justice to paralyze the business of the state. The farmer in the field is the tiller of the soil, to close the mills and factories of the state and to throw thousands of workingmen engaged in every department of human activity out of employment. The rights of the many cannot be yielded to the claims of the few. The men engaged in this 'strike' may have just grievances; they may be the victims of corporate greed and power; but the facts do not justify the present lawlessness, turbulence or the destruction of property or the forcible stoppage of the transportation lines of the state and the resulting loss and wrong to hundreds of thousands of people who are not responsible for the controversy between the railway company and its employes.

"The people of Kansas, acting through their representatives, can be relied on to see that the just grievances of any class of citizens or any wrongs done by corporate power are redressed and remedied by law. The people of Kansas, in so far as the interests of her workingmen are involved, are more liberal than those of any other state in the Union. The legislature at its last session enacted a law, the object of which was to settle conflicts between employers and their employes by peaceful and honorable arbitration. Kansas has taken the lead on many great questions and can be relied on to solve all just questions affecting the rights or interests of her workingmen.

"I therefore call upon all sheriffs, county attorneys and other peace officers to discharge their duties under the law, to preserve the peace, to protect property, to see that the commerce of the state is not interrupted by violence or lawless acts, and to restore freight traffic. No actions for trial and punishment all who are guilty of any violation of law. In the discharge of this duty you have power to call upon every citizen to aid you, and I appeal to law-abiding citizens to support me in the end that order may be restored, that the commerce of the state may be resumed, and that industry and prosperity may take the place of unseemly broils, lawlessness and destruction, financial paralysis. All the lawful authority of the state will be exerted to support the local officers in the discharge of the duties thus enjoined upon them, and all persons are hereby warned against interposing any obstacles in the way of the officers of the law or obstructing the lines of transportation on which the commerce of the state is carried."

Governor Ireland, of Texas, issues the following:

WHEREAS, It has been made known to me that disturbances, irregularities and violations of the laws are at this time existing on various lines of railroad in this state; that trains conveying freight and passengers are interfered with by persons having no connection with said roads; that bridges have been burned, and that many have been withdrawn and trains derailed to the great detriment of commerce and travel, and the placing of life in great peril. It is said that this condition of things has been brought about by organization known as the Knights of Labor, and that persons engaged in these lawless deeds are members of that order. Whether this is true or not it is barely credible that this order can be held blameless in it, can countenance the violations of law mentioned. Employes have the unquestionable moral and legal right to quit the service of their employers whenever their employment is not remunerative and satisfactory, provided such action does not violate their contract; but when they quit and sever their relations it is the duty of those quitting to get out of the way and allow any others who may wish to take the service abandoned free to do so. Intimidation or interference is a gross violation of the rights of freemen, and cannot be tolerated by any government.

Now, therefore, I, John Ireland, governor of Texas, do hereby issue this, my proclamation, warning all persons whosoever they may be, engaging in any of the said unlawful acts that they are violating the laws and peace, disaster and ruin, and that offended and outraged justice may sooner or later overtake and punish them unless they promptly cease their lawlessness. I do not undertake to say who these lawless persons are or who is in the right in controversy, but violations of the law and disregard for the rights of the people cannot be justified or excused. I appeal to the law-abiding people throughout the state to aid the civil officers in restoring order, and in executing the laws, and in discouneenancing in every way this abominable condition. I appeal to all civic officers, judges, sheriffs, constables and city officials, to make use of all the means given them by the law to restore order, with the assurance that every power of the state, if lawfully invoked, will be used to enforce the laws."

The full text of the proclamation of Governor Hughes, of Arkansas, is not at hand, but the following is a summary of its points:

He says the people waited patiently two weeks for an amicable settlement. They have interest in the regular running of trains and commerce and the good order and peace of the country should not be jeopardized by a longer suspension of business on the public highways by a common carrier whose duty it is to regularly operate trains for the convenience and welfare of the country. Therefore, the railway is required to proceed at once to regularly run trains over the road under the penalty of being proceeded against at law for further failure to do so. In order that the corporation may freely and without hindrance discharge its duty to the public, all persons are notified to refrain from any interference with trains, tracks, motive power and appliances, under penalty of the law, and sheriffs in counties penetrated by the railway are charged especially with the execution of these commands, and all good citizens are expected to preserve order and refrain from acts calculated to lead to breaches of the peace and from all trespasses on or interference with the railway or the operations thereof.

A Battle with Policemen.

Special Telegram to The Star.

PACIFIC, Mo., March 26.—At half-past 3 o'clock yesterday a freight train from the West reached Pacific and your correspondent stood where a full view of the events which followed could be obtained. After the train had passed the depot and was going by the east water tank two or three men fired their pistols, apparently in the air. The train was guarded by about forty special officers and the action of the men was a signal to open fire along the line, the men fired volley after volley at the citizens and houses. A bullet passed through the window in Charles W. McMillan's house, and just missing Mrs. McMillan, the Knights of Labor hall, which joins the McMillan house, was subjected to a perfect fusillade of bullets. The Knights who were in the hall at the time escaped through a rear door and very narrowly missed these shots. Several bullets passed through the clothing of the men and one lady standing in her doorway had a similar experience. Every one who could hear the report of arms was running to the scene and it seems miraculous that a half dozen were not killed. The Knights armed as quickly as possible and returned the fire, but the train pulled out rapidly and it is supposed no one was hit although at least fifty citizens were exposed to the fire of the trainmen no one was injured. About 200 shots were fired and the buildings on both sides of the track show the marks of from five to twenty bullets each. The question as to who fired the first shot is in debate, but a number of trustworthy citizens allege it was the train men. Suspicion also was passing the Knights of Labor hall some of the men ran across the track to it and it was then the firing began. After receiving ten or fifteen shots the Knights returned the fire and followed the retreating train. It never stopped in town but went through slowly. The episode caused the greatest excitement and in a short time every man in town came to the depot and when he returned home began "lixing" himself.

An Engineer Assaulted.

Special Telegram to The Star.

ST. LOUIS, March 26.—Engineer Walter N. Thompson was the engineer who took out the freight train Wednesday morning. He came back yesterday, and about 6 o'clock in the evening he was passing up the street to his house, 601 South Ewing avenue, when he was stopped by a party of young men who began to berate him for running the engine. He resisted angrily and was assaulted by receiving two or three severe blows about the head and neck. He has not yet made complaint against his assailants.

During the last three nights dispatches have been received from different cities requesting details of the killing of Mr. Hoxie. The last was received at 3 o'clock yesterday morning from Chicago. It was an admitted fact at the Chicago police headquarters.

A TRAIN MOVED.

ST. LOUIS, March 26.—A freight train made up by the Missouri Pacific railroad officials was started out of this city this morning guarded by a long force of several hundred policemen. No excitement attended the departure of the train and it passed the city without interference from the strikers.

News has just been received from Pacific, Mo., fifty miles from this city, that the accommodation train running between here and that place was detached by the strikers this morning. No particulars of the affair have been received, but it is reported that a company of twenty-five detectives, Furlong's men armed with Winchester rifles has been despatched thither in anticipation of a conflict between the authorities and strikers when the freight train sent out from here shall reach that place.

The officials of the Vandalia and Burlington railways succeeded in sending out two freight trains from this city this morning without serious interference by the striking switchmen there. These were the only two successful attempts, however, to move freight and passenger trains from this city. Engineer Wooding struggled manfully to prevent the locomotive being disabled. Master Mechanic Clark came to his assistance when the men fled, followed by officers who overtook and arrested them. They were released on $300 bond.

About Ended.

CHICAGO, March 26.—Chief Engineer Arthur believes the trouble of the Burlington engineers will be completely settled by to-night. He expresses satisfaction at the treatment accorded the committee by Vice President Potter, and adds the settlement cannot be considered an advance in wages, although it is, but that was not the purpose of the demand. "I will not go to St. Louis. We have nothing to do with the strike and discountenance it. The brotherhood has no affiliation with the neighbor order, and will not have if I can prevent it."

Claim They Have More Thugs.

GALVESTON, Tex., March 26.—A special to News says that the situation in that strike district is unchanged. At Waco the Knights continue confident and maintain that the strike has not yet culminated, as the Knights have a number of trump cards yet to play. Every influence is being brought to bear on the locomotive engineers to induce them to join the strike.

A Sherman special says: Some section men who went to work yesterday quit again at noon.

ATCHISON, Kas., March 26.—Another attempt was made to-day to run a freight train west on the Central branch. At 10:55 a train of five cars left the shops with Sheriff Shaw in the caboose. At Omaha Junction, near the fair grounds, a large body of strikers were found waiting, who climbed on the car, set the brakes and stalled the engine. A few minutes later the hose connecting the tank with the engine was cut and the engine backed down to the shops with the strikers on top of the cars. The engineer flatly refused to permit the sheriff to ride on the engine. A detective, who was on the train, says the sheriff absolutely refused to do his duty. He was within 200 feet of the strikers while they were setting the brakes and pulling coupling pins but took no action. At 2 p. m. another attempt was made to run out the train, but it was run into a switch at the fair grounds by the strikers, and the hose between the engine and train was cut in the presence of Sheriff Shaw and ten deputies. Another engineer was secured, John Talle, but he also refused to let the sheriff's officers ride on the engine. It is stated that the men who cut the hose this morning and this afternoon are known and will be arrested.

H. Nesbit, a Central branch conductor, reports to Superintendent Fagan that the strikers have issued orders that Webster City lying behind the tool house at Omaha Junction, three miles west of the city: Nesbit says that the cases were open and that he saw the guns. No further attempts will be made to run out trains to-day. Warrants for the arrest of seven of the men concerned have been sworn out before Justice Drury. The strike is now worse at Atchison than at any other place on the system. Six engines were removed from Greenleaf and Waterville yesterday safely and a report having been circulated in the latter place to the effect that a number of strikers would arrive from Atchison to disable the engines the citizens turned out with rifles to protect the railroad company's property but the engines were not disturbed.

ANOTHER VERSION

Special Telegram to The Star

ATCHISON, Kas., March 26.—An attempt was made to start a train on the Central Branch of the Union Pacific. The marshali and a posse and the sheriff and his deputies accompanied it. Just outside of the city limits and outside of the marshal's jurisdiction it was boarded by a large number of strikers and the engine killed. The sheriff's deputy, who stood, but was told to "shoot and be ——." He didn't shoot and the strikers were victorious. A switch engine was employed to haul the train back to the round house. This will probably end all attempts to move trains to-day.

The General Outlook Bad.

Special Telegram to The Star.

ST. LOUIS, March 26.—News is just received that the Pleasant Hill accommodation that left here at 7 o'clock this morning was captured by strikers at Gray's Summit, six miles beyond Pacific, and the engine killed on the main track.

A freight train went out this morning guarded by seventy-five policemen scattered along on top of the train, engine and caboose. It was followed shortly after by an engine and tender, upon which there were twenty-five of Furlong's men armed with shot guns and Winchester rifles. Serious trouble is anticipated at Pacific.

At every avenue crossing this morning there were about sixty policemen stationed to prevent the strikers from, if they should entertained an attack on the shops will be made.

Affairs in East St. Louis have not materially changed. Nearly all roads leading from that point are seriously discommoded, and he bad few freights going out are being sent out with some difficulty. No trouble, however, is expected from the strikers who are deporting themselves in the most peaceable and good natured manner.

The switchmen in the Wabash yards in the north end of the city quit work at 8:30 this morning in response to a call of the strikers. They have been holding meetings during the day, and about 9 o'clock determined whether they will stay out or not. The force numbers forty-five.

General Alarm in Arkansas.

Special Telegram to The Star.

LITTLE ROCK, March 26.—At 12 to-day a freight train started out north and another south on the Iron Mountain. Violence is anticipated as threats have been made to prevent them running. Alarm is felt everywhere. Governor Hughe's proclamation stating that the railroads must run trains and calling on the citizens to preserve the peace has intensified the feeling. A mass meeting of citizens will be held this evening to take action looking to a settlement between the railroad and the strikers. Sentiment in the city is greatly divided, part favoring and part denouncing the strikers. An outbreak is anticipated unless a settlement is effected shortly.

More Trouble Brewing.

EL PASO, March 26.—Trouble is again brewing among the brakemen and other freight employes of the Southern Pacific at this point. Another strike is threatened, and all freight men are greatly dissatisfied at the recent promotions of men who but lately entered the employ of the company over the heads of many older employes. It is claimed by the men that there was a agreement in the settlement in the recent strike,

Canada Expects a Strike.

LONDON, Ont., March 26.—At a meeting of Grand Trunk engineers and firemen last night a delegation was appointed to wait on Hickson and request that their wages be restored to the rates in accordance with a promise made before the late reduction. Another Street Railway Strike.

NEW YORK, March 26.—The employes of the Brooklyn and Broadway street car lines struck this morning.

Notes of the Strike.

A public meeting was held at Jefferson City last night at which the proclamation of Governor Marmaduke was indorsed and the strikers and railroads called upon to settle the difficulty at once.

Dispatches from forty-six towns on the Central Branch division of the Missouri Pacific in Kansas give approximate statements of the coal, kerosene and flour supply on hand. Twenty-four correspondents report not a pound of coal on hand and several no kerosene, flour or groceries. With but few exceptions the coal supply in the remaining twenty-two towns is very low, and will give out before the close of the week. Many of the towns are from thirty to fifty miles from other railroads to which the merchants must send wagons for supplies. Some towns has doubled the price of coal and provisions.

The St. Joseph switchmen returned to work last night.

The directors of the Missouri Pacific, at a meeting in New York yesterday, adopted the following resolution:

Resolved, That this company will in the future as it has sought to do in the past make every effort to secure the earliest possible and regular resumption of the operation of its trains and it pledges itself to conform and comply on its part with all the requisitions of the governor in said proclamation.

THE NEW OKLAHOMA

IS TO BE CREATED A TERRITORY.

Provisions of the Bill—A Constituent Attempts to Shoot Senator Riddleberger on the Capitol Steps—Confirmations —Other Washington News Notes.

Special Telegram to The Star.

WASHINGTON, March 26.—There seems some prospect after all that the house committee on territories will report a bill creating the territory of Oklahoma. They reported a substitute to-day in place of the bills heretofore referred to them with the request that it be printed and recommitted. Members of the committee express considerable confidence in the final adoption of the bill without material changes. It is a measure of such large importances to the mercantile community of Kansas City and all the large western cities that a synopsis of its provisions will be found of unusual interest. It differs radically in several respects from other bills heretofore under consideration. It includes the whole of the Indian territory in the public land strip in addition to the proposed territory of Oklahoma, but makes careful provision for the protection of all the rights of the Indians who are thus brought within the jurisdiction of ordinary territorial government. The first section of the bill stipulates that the creation of the territory of Oklahoma is not to impair the rights of persons or property, or to impair any patent to lands now pertaining to the Indians in said territory and the laws and treaties of the United States, or to include any territory occupied by any Indian tribe to which a title has been conveyed by patent from the United States without the consent of said tribe or any territory which by treaty or agreement with any Indian tribe is not to be included within the territorial limits of jurisdiction of any state or territory, but all such territory shall be excepted out of the boundaries and constitute no part of the territory of Oklahoma until said tribes shall signify by their assent to the president of the United States their desire to be included in the said territory of Oklahoma, except for judicial purposes, as provided herein, or to affect the right of the government of the United States to make any regulation or enact any law respecting such Indians, their lands, properties or other rights which would have been competent to make or enact if this law had never been passed. Another section provides that the constitution and laws of the United States not locally inapplicable shall have the same force and effect as elsewhere in the United States, but it is expressly stated that nothing in the act shall be construed so as to interfere with the local government of any Indian tribe now provided for in any land patent to the United States or which may exist in conformity thereto. It is explicitly required, however, that the supreme court of the territory shall fix times and places for holding courts in the several parts of the area occupied by the five civilized tribes. This section continues: "Said jurisdiction of the courts had therein shall embrace all causes of action, crimes and offenses arising in the Indian territory heretofore cognizable by the United States courts of the western district of Arkansas, the district of Kansas and the northern district of Texas," and all laws heretofore in force conferring jurisdiction to said United States courts within the Indian territory are hereby repealed." Provision is made in the bill for the appointment by the president of a commission of five members to negotiate with the Indians for assignment of their lands in severalty, after which they are to be opened for settlement.

The bill provides, also, for the termination of all the existing laws, and the repeal of all the railroad land grants.

Senator Edmunds's Resolutions.

Special Telegram to The Star.

WASHINGTON, March 26.—Mr. Edmunds announced yesterday afternoon that he would endeavor to obtain a vote on his resolutions to-day, and the probability is that unless the debate on the Van Wyck amendment occupies a considerable time, he will be successful.

Senator Van Wyck has decided not to withdraw his amendment and there is every probability now that it will be adopted. This has caused considerable alarm among Democratic senators. Many of the Democratic senators, particularly Senator Morgan and Senator Haines are violently opposed to open sessions and without the full Democratic vote it is evident that the amendment would not prevail. Yesterday the Democratic senators finally agreed to support the Van Wyck amendment. The theory upon which they will base their action is that if Mr. Edmunds and his followers choose to arbitrarily reject good men nominated by the president for official positions, they must do it where the public can see and judge of their actions. The real end the Democratic senators are seeking is to wright the resolutions with an amendment the Republican senators will not care to swallow.

Senator Beck has seen the political wisdom of this course, and he spoke to many of his Democratic colleagues with the result that they will vote the amendment. Senators Morgan, Harris, Coke, Blackburn, George, Kenna and the leaders of the minstry have all intimated their intention of voting for the amendment. With this vote of the Republican senators who have already expressed themselves on the subject, the Democrats should be able to pass the amendment. Mr. Edmunds may have some trouble in passing his resolutions in their present shape, but it probably all events the controversy will have new interest from this added element.

Trenholm not Wanted.

Special Telegram to The Star.

WASHINGTON, March 26.—The senate finance committee has not taken up the nomination of W. L. Trenholm to be comptroller of the currency because a great deal of quiet opposition to him has developed. The silver men hold that Mr. Trenholm's financial views are not sound and they say that the next comptroller president should have some one in the comptroller's place who is in financial sympathy with him, but they object to having any one there who has not the confidence and support of all his public speeches. Mr. Trenholm's speech before the national bank convention is being used against him by those who argue that a man placed in a position of trust to watch over the banks should not have too intimate relations with them. Mr. Trenholm's name will be reported to the senate on Tuesday, and there is a possibility that the report on his nomination will be adverse. The silver men have a majority in the senate and can reject Mr. Trenholm if they wish.

Attempt to Shoot Riddleberger.

Special Telegram to The Star.

WASHINGTON, March 26.—There was open war in the Readjuster party yesterday, and the United States senate came very near having one more vacant seat. Senator Riddleberger and a prominent Virginia Readjuster, a resident of Hanover county, "Jersey" Jones, got into a difficulty at the east front door of the senate wing of the capitol. Riddleberger struck his Hanover county opponent in the face before either of the belligerents and Mr. Jones thereupon reached frantically for his pistol pocket and drew out an able bodied piece of light artillery. How much execution he might have accomplished no one can tell, for a policeman happened to be near at hand and made effective objection to further proceedings before Riddleberger suffered any harm. The senator walked back into the capitol and soothed his lacerated feelings, and no attempt was made to arrest Jones. It is not expected the affair will go any further.

Confirmations.

WASHINGTON, March 26.—Among the confirmations made by the senate yesterday were:

Thomas W. Tipton, receiver of public moneys at Bloomington, Neb.

Register of the land office—Thomas B. Davis at Lincoln, Neb.; John G. Higgins at Grand Island, Neb.

Surveyorgeneral—John F. Gardiner of Nebraska.

Indian agent—Charles H. Potter of the Omaha and Winnebago agencies.

United States consul—Rufe Letcher of Missouri at Hayti.

Postmasters in Kansas—Albert E. Mann, Pittsburg; E. V. Wharton, Yates Center.

Postmasters in Nebraska—Jonathan N. Wise, Plattsmouth; Charles M. Wilson, Tecumseh; George A. Moss, Nebraska City; Thomas Martin, Nebraska City; Samuel E. Riggs, Beatrice; W. T. McGinnis, Minden.

Secretary Manning's Condition.

WASHINGTON, March 26.—The son of Secretary Manning said to an Associated Press reporter at 11 to-day that the condition of his father remained practically unchanged. The doctor had informed him that his father was passing through the critical stage of his disease and every hour passed without an indication of unfavorable symptoms was so much progress towards recovery. He realize however, that the was in a critical condition and is not entirely out of danger.

Oklahoma Territory.

Special Telegram to The Star.

WASHINGTON, March 26.—The house committee on territories to-day decided to report next Wednesday a bill to organize Oklahoma territory.

An Old Claim.

Special Telegram to The Star.

WASHINGTON, March 26.—Senator Cockrell introduced a bill to pay $9,000 to William Wolfe, of Shelbina Mo., for the loss of his schooner on the Gulf of Mexico while in the service of the United States in 1865.

Postmasters appointed in Missouri—At St. Elizabette, P. I. Nixder, vice Luckenhoff, resigned. Vinton, J. Francisco, vice Martin, resigned. Welch, N. P. Stephenson, vice Luske, resigned.

Governor Murray's Probable Successor.

Special Telegram to The Star.

WASHINGTON, March 26.—General McClernand, of Illinois, is in the city at the invitation of the president, and probably will be allowed to choose between the chairmanship of the Utah commission and the governorship of that territory.

Yesterday's Congress.

Senate—A bill to establish a commission to examine and report to congress as to the character and value of the mineral right belonging to congress was passed.—The Edmunds resolutions were placed before the senate and Mr. Voorhees spoke against the majority report and Mr. Ewarts in support of it. An executive session was held.

House—A resolution was adopted calling on the secretary of the treasury for a list of the claims allowed by the accounting officers of the treasury.—The committee on territories reported a bill to provide for the organization of the territory of Oklahoma. It was ordered printed and was recommitted.—The house then went into committee of the whole on the postoffice appropriation bill.—Messrs. Dockery Brumm, Semmes, Peters, and Guenther took part in the discussion of the bill.—Resolutions of respect to the memory of the late Congressman Rankin were adopted.

MARKETS ELSEWHERE.

Wheat Steady and Strong but Very Dull—Corn and Provisions Quiet.

Norton & Worthington furnish the following from their private wires:

May wheat opened at 80¾c., this decline from yesterday's close being induced by the news of a strike of the Wabash switchmen in St. Louis and the fears of further complications in the vexed railroad question. The market immediately grew firm, however, on good buying by foreign houses who claimed to have orders from abroad. The crowd also was bullish and exporters were again said to be large buyers of futures in seaboard markets. On such news as this the market gradually hardened, being highest at the close when May was 81¼@¾c. If it were not for the continuance of the strike, it appears evident that the bouyant feeling now beginning to prevail would take possession of values and carry quotations sharply upward.

Three loads of wheat were bought for exports in Kansas City this morning, and Pawee Son & Co. wire us direct that they accepted to-day an offer on eleven loads for Marseilles. They add: "There is no doubt that some 40,000 bushels have been sold to the continent in the last few days, chiefly for Italy and the south of France, which hitherto have been mainly supplied by Odessa. Most sales won't be shipped until next week and the week after."

The New York market advanced about ¾ cents this morning, being effected principally by the war news. Our London cables say that the feeling prevails that war between Greece and Turkey is inevitable, and also that the campaign will be brief and very disastrous to Greece.

Nevertheless at 4 p. m. consols closed unchanged at 100 11-16.

Receipts at primary points continue to undermine last week's very considerable. Our estimate on the next decrease in the visible indicates that it will be about 2,000,000 bushels, the uncertain factors in the computation being receipts and shipments to-morrow and Saturday's withdrawals from store in New York.

Clearances from the seaboard to-day were 111,156 bushels of wheat and 374,742 bushels of corn.

Receipts of wheat at Duluth to-day 50 cars.

Receipts of grain in Chicago were 34 cars of wheat, 75 of corn, 62 of oats, 5 of rye and 31 of barley.

Estimated receipts for to-morrow are 31 cars of wheat, 140 of born and 67 of oats.

Official receipts of hogs yesterday were 21,045, shipments 11,573; left over, 3,000; estimated receipts for to-day, 22,000; estimated receipts for to-morrow, 12,000.

The quality was better, but the market only fairly active, buyers taking hold slowly. Prices was 5@10 cents lower.

Corn and provisions closed a shade lower than yesterday, but there was nothing doing in either.

Cables on both wheat and corn were firm and unchanged.

RUSSELL SAGE'S WEALTH.

The Millionaire Gives Some Indefinite Estimates of How Much He is Worth.

Special Telegram to The Star.

NEW YORK, March 26.—Jay Gould and Russell Sage were in the superior court to-day in reference to a bond which they executed as sureties for the Western Union Telegraph company, on its appeal from the judgment recovered by James H. Goodsell in his suit for breach of a contract to transmit messages for the said company's benefit. Mr. Sage was sworn, accepted without question as to his sufficiency but Mr. Sage was subjected to an examination as to his property. He said: "I am both merchant and broker. I have been a member of the New York stock exchange. I can't say that I am actively engaged in business at the present time, except looking after my various interests. I no longer do anything in doing business. My business risks are very limited indeed. My business risks amount to $20,000 or $30,000 at the present time, dependent upon the fluctuations of the stock market. I have a few outstanding contracts and privileges on stocks. I can't tell how many shares, from 20,000 to 30,000 shares. I cannot conceive of any panic that would result in a loss of more than $100,000 on the contracts which I have out at the present time. I state this after a business experience of over twenty years. I am, perhaps, liable for $10,000 and all my bonds will not realize $10,000 cases, jointly either with Mr. Gould or Mr. Field. For convenience sake I sign these bonds when Mr. Gould or Mr. Field is absent. I am not connected with any railroad or corporation other than I have mentioned. I am not surety for any trustee. I am one of the sureties for Solon Humphreys and Thomas W. Tiffit, receivers of the Wabash railroad, for $50,000. I don't remember that I have any indebtedness at present. I have $2,000,000 or $3,000,000 due me on collateral. I own ten first-class residences free and clear, estimated value, $600,000 to $700,000; own a number of vacant lots on Eighth avenue, worth $20,000 each, and also six on the west side of the north side of Sixty-seventh street; I consider them worth $12,000 each. I estimate that I am worth above all liabilities several million dollars. If all my contracts should become a total loss I would still be worth several millions of dollars. The total loss could not possibly be in excess of $2,000,000." I would still be worth more than

TO ADVERTISERS.

For some weeks past, in order to accommodate its advertising patrons, THE STAR has accepted more advertising matter than in justice to its readers it should have done. Hereafter advertisements will not be permitted to encroach upon the news columns, and therefore patrons desiring the insertion of their announcements would do well to have their "copy" at this office the night before the same is to be published.

To vary the monotony of strike news a choice morsel of villainy comes to-day from Texas. Four persons were killed and two fatally wounded in a fight about cattle stealing, all of them prominent citizens

GOVERNORS' proclamations are getting thick and they voice the will of the people who want traffic on the railroads resumed. Missouri, Arkansas, Kansas and Texas have spoken through their chief executives.

SENATOR VOORHEES yesterday indulged in one of his "flights of oratory" at the expense of the senator from Vermont. He was particularly lucid in his explanation of protoplasm and its relations to the Democratic party.

THE governors of Missouri, Kansas, Arkansas and Texas all demand that traffic and business shall be resumed by the Missouri Pacific railroad. It remains now to be seen if the governors are able to enforce their demands.

THE STAR does not believe that politics should influence the vote of any man at a municipal election. It advises citizens to vote for M. KUMPF for mayor, not because he is a representative of a political party but because he is a better man than his opponent.

MANAGER HUDSON has inaugurated a much needed reform in requiring late comers at the Coates opera house to remain in the lobby until the curtain falls on the first act. This is a move in the right direction and it should be supplemented by having the curtain rise promptly at 8 o'clock.

JOHN KELLY, the headlight of Tammany hall, seems to have as much tenacity of life as the cat is generally credited with. He has been announced as dying time and again and yet he holds on to earth with a grip which is reprehensible in a dying man, and wholly distasteful to those who have been eagerly waiting for his demise. The latest report is that he is convalescent, and was immensely tickled yesterday when he heard of Alderman JAEHNE'S rascality being exposed. The old sachem may yet live to lead his braves through many a field.

THE fourth-class postmaster does not have a bed of roses, especially about the time an administration belonging to the opposition comes in. He is not an officer of sufficient importance to make his retention necessary to the proper running of the government, and coming within the jurisdiction of the postmaster general and being subject to the whims of his ambitious neighbors who are anxious to serve their country, it is not long until he is decapitated to make room for a successor of opposite political views. This fact is fully demonstrated in the removal since March 4, 1885, of 8,645 of these worthies. Of these removals New York got the largest share, her total being 1,053, while Pennsylvania shows 938 changes and Ohio looms up a good third, with 878 victims. The smallest number credited to any one state is 7, which goes to Nevada. One might think this excessive; but as there are three times as many more left in office the work was not so sweeping as it would appear at first glance. What the causes were in most of the cases we cannot say, but presume that "offensive partisanship" will cover a good many. Those who are left are trembling in their boots, each one expecting his turn to come next.

THE third annual report of the civil service commission was presented to congress yesterday, together with a message from the president commending the action of the commission and its results. That these results have been good there can be no doubt, and the fact is made plain that a great step has been taken toward purifying the politics of the country and placing the administration of public affairs on a business basis, where it should be, with reference to minor officials especially. Whether a man is a Democrat or a Republican makes very little difference in his administration of an ordinary public trust, provided he is thoroughly honest and competent. The appointive offices should be open to all, irrespective of politics or religion. Their work is purely business and they should be selected with a view to their fitness to administer such business, without regard to what party they may endorse for the elective offices. That this principle has been adopted by the commission can be readily seen when it is stated that of the 4,000 persons who have secured places under civil service rules and examinations 2,000 were from each of the great parties. The whole number of applicants during the year were 7,602, of whom there were 6,872 males and 730 females. The whole number examined since the act was passed was 17,499, of whom about two-thirds passed examination. Every examination is open to all who care to make application, without regard to political or religious belief. The ladies have the same chance the men have, and all are treated alike. A few years more of active work under this law will mark a great improvement in politics and will remove all incentive to political trickery to obtain office. Let the commission continue its work.

A Methodist preacher hinted that it would be nice to go to Europe, as his throat trouble was getting worse, but the good deacons sent for a bottle of Dr. Bull's Cough Syrup, and consequently now enjoy a good sermon.

Ratification Meeting.

The Republican ratification meeting held at Kump's hall, last night, was not only largely attended, but its attendance represented the best political element in Kansas City. The meeting was called to order by Colonel R. C. Crowell and General R. H. Duval acted as chairman. Among the gentlemen who took seats on the stage were Henry C. Kumpf, Colonel L. H. Waters, Gardiner Lathrop, J. V. C. Karnes, T. B. Bullene and T. H. Taylor.

The first speaker, General Duval, said among other things that before the gray headed men of to-day had passed away Kansas City would be a metropolis of 500,000 inhabitants. Mr. Kumpf in speaking of the campaign talk about his being an old man said: "It has also been stated that I am an old man. I have gray hair, but I am not old. When we write 1900 I will only be 70 years of age, and I will not be an old man when we have 300,000 inhabitants."

The next speaker, Mr. J. V. C. Karnes, in the course of his address to the meeting, said: The Republicans had presented to the good people of Kansas City as their standard bearer, Mr. Kumpf. He was not a good looking man. He never parted his hair in the middle, and never wore a buttonhole bouquet. Although a German, he has never led the german. We have none of us seen his last poetical effusion, but still we claim that he can beat George Washington Warder, the poet. Mr. Kumpf has a big head full of brains; a stiff backbone, and a talent for business.

"Business men in the world understand what business men are. They don't want poets who frequent the green rooms of theaters and write odes to the actresses. Oh, no. They say Mr. Kumpf is only a bookkeeper, but it will be noticed that his books always balance. It was for this bookkeeper to inaugurate a system of bookkeeping in the city auditor's office that showed the citizens where they stood financially and enabled Kansas City to become what she is to-day—the most prosperous city in the union. If you would put George Warder in that position he would be as much out of place as old man Kumpf at the Craig Rifles' hops."

Col. L. H. Waters followed Mr. Karnes in a brief speech, during which he said: I have known Mr. Warder for years and I have heard but one thing against him and that is that he is a poet. I pronounce that a lie. Oh, no. He can't write poetry and I will not hear him lied about." The speakers were followed by Mr. T. B. Bullene and Mr. Gardiner Lathrop. Mr. Lathrop during his speech said: "It is said that Mr. Kumpf is old; that we want young, progressive men, but we want progress coupled with experience. Mr. Kumpf has the experience, and we all know, the progress as well."

AMUSEMENTS.

Boston Ideals in "A Maid of Honor"—Attractions at the Various Theatres.

Last night the famous Boston Ideals opened their engagement at the Coates in their latest novelty, "A Maid of Honor," an adaptation of Halevy's "Mousquetaires de la Reine." The opera is a new one having been presented for the first time at Troy, N. Y., about one month ago by the Ideals. The original opera was produced in 1846, the famous tenor, Rogers, playing the role of Philip. The opera is interspersed with delightful melodies and contains many bright and catchy airs. Miss Marie Stone, who is a great favorite here, shared the honors of the evening with Tom Karl. Mrs. Agnes Huntington has a sweet soprano voice and is a valuable acquisition to the company. Mrs. Lizzie Burton is an old favorite and appeared to advantage as the Grand Mistress of Ceremonies. The chorus that accompanies the Ideals this season is a remarkably well selected one, the ladies having a combination of attractions that is seldom found in female choruses—good voices and pretty faces. The audience last night were thoroughly satisfied, although they were rather sparing of their applause. All the old faces were present, in the cast last night with the exception of Barnabee and Frothingham, who will appear to-night in "Victor, the Blue Stocking."

"Victor, the Blue Stocking," which is also a new opera in the repertory of the Ideals, will be presented to-night. The following is the cast:

Victor Delmar	Mr. W. H. MacDonald
Marquis de Palsamblue	Mr. H. C. Barnabee
Mons. de Florac	Mr. Herndon Morsell
Sergeant Cruyere	Mr. Geo. Frothingham
Bertrand	Mr. J. A. Montgomery
Landry	Mr. Geo. Bogie
Friquet	Miss Mena Cleary
Auguste	Mr. H. S. Dale
Fanchette	Miss Zelie De Lussan
Celestine	Miss Agnes Huntington
Ulrica	Miss Lizzie Burton
Toinette	Miss Fannie Knight
Julie	Miss Millie Krafts

The audience at the Gillis, last night, was well pleased as they have been every evening with "The Shadows of a Great City." The play will be given to-night and to-morrow night, with a matinee Saturday afternoon.

Mr. J. B. Polk supported by a good comedy company will appear in "Mixed Pickles" at the Coates, Thursday, Friday and Saturday of next week.

Professor John Reynolds, the mesmerist, will be at Music Hall next week. Professor Reynolds is well up in the art and should draw good houses.

AN OLD GAME.

A Kansas City Lawyer Receives a Circular That Has Proved a Tempting Bait to Hundreds of People.

A STAR reporter was in the office of a well known Main street lawyer this morning while the legal gentlemen was engaged in looking over his mail. He opened a letter received from New York, and after reading its contents exclaimed: "Chestnuts!" He then handed to the reporter the following, which had been written on manifold paper:

DEAR SIR—I am a confidential agent, who was in your section of country a short time since, informed me he thought you was a man I could trust and place implicit confidence in. Hence I venture to write you and ask you if you care to make money fast. If so, write me at once and if so, write immediately for full particulars, etc. The goods are of a beautiful green color; the sizes are ones, twos, fives, tens and twenties. Do you understand? Sign——. No——, instead of your name. Very Respectfully,

C. CLARK, 1924 Third avenue, N. Y. City.
New York City, N. Y., 1886.

Now what do you think of that," exclaimed the gentleman of legal attainments. "Don't that beat politics? I suppose that they have quit sending these ancient chestnuts to Texas gentlemen, and now are working them off on Kansas City. Well, we will just fool them once and for all by them keep their goods of 'a beautiful green color.'"

SHE USED KEROSENE,

And in Consequence Herself and Two Children Lost Their Lives.

READING, Pa., March 26.—Mrs. Henry Franke, aged 42 years, living about two miles from here on a truck farm, yesterday kindled a fire with coal oil and while so doing the flames ignited the can, which exploded with terrific force. The burning oil was scattered over the body of the woman and upon her two children, aged 9 and 11 years. The frantic woman ran into the yard and jumped into the cistern and was drowned. The children were terribly burned about the face and body and cannot recover.

The Mandamus Case.

The mandamus proceedings against City Engineer B. R. Whitney to compel him to sign the contract for Robert Chambers, for the building of a sewer in sewer district 109, came up before Judge Slover, in chambers, this morning. The defense for not signing the contract was that the ordinance was not valid, so that Mr. Whitney was not compelled to sign it. The invalidity of the ordinance consisted in the fact that the proposed sewer had no outlet, running into a dead bank, fourteen feet under ground. Judge Slover took it under advisement, and in the meantime briefs will be admitted.

LARRY KING.

A Well Known Chicago Crook Arrested in Kansas City.

When Chief Speers walked into the recorder's court this morning he was accompanied by a neatly dressed gentleman of medium height, well formed head, shrrp eyes, and a fine mustache. A student of human nature would have immediately have taken him for a professional man. The person referred to was Albert, alias Larry King, a good natured and bright "all around crook." Probably no crook is better known or had a more extensive reputation in and around Chicago than Larry. He has just succeeded in evading a ten years sentence in Indiana, through some technicality of the law, and is now on his way to California. He and a "pal" named Frank Dougherty were arrested last night by Officer Fairfield. Fairfield ran them in as suspicious characters, and this morning they were recognized as professionals. They manifested a desire to leave the city, and were allowed to go. They continued their trip west, departing on the first train.

MORE PAVEMENTS.

A New Petition in Circulation on Fourteenth Street—Four Parallel Paved Thoroughfares.

A petition is now in circulation asking for a wooden pavement on Fourteenth street from Locust street to Woodland avenue. This petition already has the signatures of a majority of the property owners. Petitions are now circulating for pavements for Twelfth, Thirteenth, Fourteenth and Fifteenth streets. The Fifteenth street petition calls for a pavement to the new city limits.

REAL ESTATE ON THE JUMP.

Prices Going Up With Astonishing Rapidity—A Big Boom.

One piece of real estate on Walnut street was sold seven times on contract yesterday and the last seller made $1,300. Another piece fronting forty-eight feet on Walnut, between Sixth and Seventh streets, was sold yesterday for $20,000. It was bought by yesterday's seller twenty days ago for $12,000. Five years ago this piece of land sold for $1,500.

Military Companies.

A meeting for the inspection of companies A, B and C, of the First batallion was held at the armory, Fourteenth street and Grand avenue, last night. Several visitors were present, among the number an officer of the Pennsylvania militia.

The Scott Rifles, Company A, decided to increase its ranks to sixty and accept no one who has not been in service. They will soon purchase regulation uniforms.

The following staff officers were appointed: Assistant surgeon—Dr. J. D. Griffith.
Quarter master—Joseph L. Norman.
Commissary—W. D. Landstreet.
The non-commissioned staff was appointed as follows:
Quarter master sergeant—J. F. Terry.
Commissary sergeant—John Monybunt.

Street Railway Extension.

Mr. Thomas Corrigan is making preparations to extend his Independence avenue line. The road will be built from Independence avenue north on Woodland avenue to some street not yet fully determined upon, and thence east through Pendleton Heights. An ordinance asking for a franchise for the extension is being prepared and will be introduced at a meeting of the council next week or the week following. It is expected that the road will be built and in operation by May 1.

The Missouri river is rising, and Captain Gilkerson, of the Annie Cade, says the symptoms at present are entirely similar to those of 1881, the year of the "big rise." The captain received a telegram from Capt. J. L. McGee, of Brownsville, Neb., saying that the river had risen nine inches at that point, which is near the Big Platte. This rise will reach this point sometime Saturday.

SATURDAY: Fair weather; slightly warmer; winds generally easterly.

KID GLOVE sale to-morrow at $1.00 per pair.

Gloves to-morrow will doubtless be sold in the largest quantity of the season. A great many new Bonnets and Hats have been sold that will doubtless be worn for the first time on Sunday. New Kid Gloves either dressed or undressed, will certainly be seen to correspond. Remember we are selling the most reliable brands of Gloves imported into the United States and we control them for this city.

ANGORA WOOL LACES are again selling freely. It is becoming understood that they prove to be the most durable trimming manufactured. We are frequently ordering colors that are sold out. A great many Spring Wraps are trimmed with Wool Laces.

Do not pass hastily our Linen Collars and Cuffs for Ladies. The collection of styles in white is very extensive, while the Novelties in French, Percale, Striped and Plaid are increasingly popular.

We will give you a chance to buy some Ruchings cheap to-morrow. An immense display of Novelties will also be exhibited.

Our Hosiery counters are well patronized because we have the styles and quality wanted, and the better qualities invariably at lower prices than elsewhere, because we import direct in large quantities.

CORSETS—We don't suppose we sell all the Corsets that are worn in the city, but from the quantity that leaves our counters every day, it is a surprise where they all go. We keep the best styles; the most perfect fitting.

Jersey Waists are also a specialty with us in our Hosiery department. Come and see our new styles.

To-morrow will be another big day at our Men's Shirt counters. Read our ad. on another page.

$1.25 a Pattern—In one of our front show windows is a card which reads "French Pattern Sateens, $1.25 a Pattern." Look into this window. Note the beautiful designs on tinted grounds, then step just inside the entrance at this window. There you will be shown the full assortment in all the different colored grounds---dark and light.

Tumble in prices, come when and where we least expect, and no one seems to know why, but we want a hand in the tumble. See our ad.---second page---under "Our Bargain Corner," and you will understand what a tumble in prices means.

Benton's Hair Grower.

All who are BALD, all who are becoming BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp; should use Benton's Hair Grower. Eighty per cent of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and dreaded for years, we have fully substantiated the following facts:

We grow Hair in 80 cases out of 100, no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a spec fic for falling hair, dandruff, and itching of the scalp.

The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

DOUBLE AND TRIPLE STRENGTH.

When the skin is very tough and hard, and the follicle is apparently effectually closed, the single strength will sometimes fail to reach the papilla; in such cases the double or triple strength should be used in connection with the single, using them alternately.

Price, Single strength, $1.00; Double strength, $2.00; Triple strength, $3.00. If your druggists have not got it we will send it prepaid on receipt of price. BENTON HAIR GROWER CO.,

ENGLISH CORTICINE!

Manufactured by the Corticine Floor Covering Company, LONDON.

CORTCINE is a Floor Covering; which, after twelve years of hard trial has thoroughly established itself in public favor. It is composed of purely vegetable oil, prepared by a special process, mixed with ground cork and rolled on a strong backing of waterproof canvas.

It is a warm, soft, noiseless, clean and thoroughly damp proof material, inodorous, of great durability and elasticity. When once laid it need never be taken up.

It ie available for every purpose for which Linoleum can be applied, while it possesses the additional merit of being entirely unaffected by temperature.

Corticine!

Is used by Banks, Railway Companies, Hotels, Apartment Houses, etc., and in all places where the traffic is great.

It has been adopted by the British government and also by the Treausry, War and Navy departments of the United States.

FOR SALE--REAL ESTATE.

MOUNT EVANSTON ADDITION TO THE CITY of Kansas is said to be the lowest priced property in or about Kansas City. The addition contains about 13 acres, cornering on Twenty-third and Vine sts. The location for health and beauty is not excelled, and for convenience of access will be brought into direct communication with Union depot and all parts of the city by a branch of the new cable line. Lots in this addition on Vine, Highland and Woodland aves., and in the midst of good improvements are bound to sell, and rapidly. This property is within easy walking distance of the center of the city, and in buying in this addition you get the benefit of same prices and even less than they are asking for suburban lots. We furnish a full abstract from government to plat, with certificate of title, to each purchaser. Just think of it! $16 per foot for good desirable city lots, within three minutes' walk of street cars and a projected line right by the door. As far as terms go, we can make any, and where others make easy terms we can make easier. There is no reason why anyone should not start the foundation for a home or speculation. For those who want a home to move into and save rent, that is, instead of paying rent, apply the payments to buying a home, we will build and sell you the property cheap.

This property is fast increasing in value and is building up with good homes, and of the many additions on the market, we can recommend this. It speaks for itself.

I have an office on the grounds, or call on

W. V. LIPPINCOTT, JR.,

HOUSE FOR SALE ON INSTALLMENTS. All those desiring a home on installments is a good method, provided the purchaser lives to complete the payments. But in case of his death the family may lose all prior payments. To prevent such loss a policy of life insurance should be carried sufficient in amount to cover the entire indebtedness. At death the insurance would pay all arrears and leave the home free. A reliable and low rate company should be selected; such is the "Provident Savings Life" of New York. At age of 35 $1,000 insurance costs but $10 a year, or only $2.50 a quarter, other amounts in proportion. If you desire an interview, address a card to or call on either B. V. HUBBARD or C. F. McGregor, General Agents, room 3, 102 W. Fifth street, Kansas City, Mo.

Kansas City, Mo., March 23, 1886. 164

TO all whom it may concern. Notice is hereby given that the undersigned J. S. Chick, R. W. Wood and B. F. Wood, will, on the 9th day of April, A. D., 1886, at the law office of Holmes & Ward, northwest corner of Missouri avenue and Main street, in Kansas City, Missouri, between the hours of 8 o'clock a. m. and 5 o'clock p. m. of said day, proceed to take the depositions of John C. McCoy, H. M. Northrup and John Campbell, in pursuance of a commission issued February 20, 1886, by the clerk of the circuit court of Jackson county, Missouri, at said city upon the petition of the said parties hereto, J. S. Chick, R. W. Wood and B. F. Wood, and in accordance with the statute made and provided to perpetuate testimony.

The object of said testimony is to prove that the land lying north of blocks "A," "C," "D," "E" and "G," of the old town reserve of Kansas City, Jackson county, Missouri, and which is part of said reserve and which was laid out into lots or blocks by the commissioner appointed in the partition suit of John C. McCoy against Jacob Ragan and the other owners of the old town reserve of Kansas City aforesaid for the partition of said reserve begun at Independence, Jackson county, Missouri, May 1, 1856, was left by agreement of the parties to said suit undivided, and was left by said commissioner undivided intentionally and according to agreement between the parties to said suit; and that at the time the commissioners were making the plat and survey of the lots and blocks laid out by them for division in said suit aided by part of the parties to said suit, that John Campbell tried to get them to give the ground left on the north side of said lots and blocks for a street, but that they refused to do so and that it was left undivided by the commissioner in said suit for the purpose of enabling the owners of said reserve to continue their control of the river front along the north line of said reserve; and that at the time it was left it was about eight feet wide at the west end and about two hundredat the east end, and that at that time H. M. Northrup tried to buy it for the use of his ferry from the owners of said reserve, but that they refused to sell to him; and that the taking of said deposition will be continued from day to day until completed, at the same place and between the hours aforesaid.
